

```
graph LR; A[Raindrop falls or pool is breached: micro-rill formed] --> B[Flow in micro-rill modifies local microtopography]; B --> C[Probability of 'success' or 'failure' for subsequent micro-rills changed]; C -.-> A;
```

Raindrop falls or  
pool is breached:  
micro-rill formed

Flow in micro-rill  
modifies local  
microtopography

Probability of 'success'  
or 'failure' for  
subsequent micro-rills  
changed
